

A.B.

"They called firepit (in houses) what<sup>?</sup>nta<sup>?</sup>, but never saw any lined with bark."

was never the Latvian (assumed) tiger's belly was  
"...and the lion was

A.B.

(Pointing to a piece of red hematite which we had collected from Point St. George): "Was red clay for paint, used to get it up at Big Flat. Men and women both make themselves pretty with it (i.e. painted designs on their faces)."

NOTE: Amelia also stated later that this material was not regarded as valuable. Red clay (hematite) was called t'at'eye.
